- Bed dimension:
Length: 20.4" (517 mm), Width: 7" (178 mm)
- Space to right of needle: 9.9" (251 mm)
- Outside diameter of machine pulley:
3.6" (91.9 mm) effective diameter for V-belt
- Alternating movement: 3.0- 7.0 mm
- Needle bar Stroke: 1.4" (36 mm)
- SINGER® Needle Cat. No. 3355-01
- Motor required: SINGER® clutch motor
low speed 1/2 H.P.
- Needle gauge size for 4412A: 3/16" (4.8 mm)
1/4" (6.4 mm)*
5/16" (7.9 mm)
3/8" (9.5 mm)

* Standard

Features

- New design of stitch length adjusting dials can be turned easily.
- The slide plate added with small window which allows the operator to easily check the remaining amount of the bobbin threads so that it's not worry about own works.
- Compound feed with alternating pressers (Unison feed) to aid in even feed of the heavy weight materials piled up together.
- large hooks: Vertical axis 1 piece (2 times capacity).
- Automatic lubrication with lubricated hook.
- Safety clutch prevents damage to hook and thread handling parts caused by thread jamming.
- Bobbin winder on table top.
